Your generous check from the AHYM arrived and I was able to cash it and give the \$300 to the ladies yesterday. They are thrilled and very thankful for this financial support of their scroll saw project.

Lucy and I were able to buy some needed items for the project, already, with the money you sent. They will be ordering some needed wood products soon.

Even though they have been selling their "creations" to groups who visit from the US, they know that they will have to find a market in Agua Prieta, also. The ladies are SO proud of their creations....it is sweet to see. They still sew for the Gloo Factory in Tucson (fair traded product) and do quilting of purses and place mats and other sewing items. Also, they are now in the process of planting their organic garden....loads of work for them.

Please let me know where I should send the thank you note....To your address or to the Flagstaff address?? I cannot quite make out the street name on the envelope. Thanks again for your generous donation. May the light continue to fill your lives,
Judy
